Independent Auditors' Review Report  
(114) Tsai-Sheng-Bao-Zi No. 25001978

To Taiwan Mask Corporation,

## Introduction

We have audited the accompanying consolidated balance sheets for the periods starting January 1 and ending September 30, 2025 and 2024, the consolidated statements of comprehensive income for the periods starting July 1 and ending September 30, 2025 and 2024, and starting January 1 and ending September 30, 2025 and 2024, and the consolidated statements of changes in equity and cash flows for the period starting January 1 and ending September 30, 2025 and 2024, as well as the notes to the consolidated financial statements (including the summary of significant accounting policies), for Taiwan Mask Corporation and subsidiaries (collectively referred to as the "Group"). The Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and IAS No. 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

## Scope

Except as explained in the following paragraph, we conducted our reviews in accordance with Standards on Review Engagements No. 2410, "Review of Financial Statements" in the Republic of China. The procedures performed when reviewing the consolidated financial statements include inquiries (mainly inquiring personnel responsible for financial and accounting tasks), analytical procedures and other review procedures. The scope of review is obviously smaller than that of audit. Therefore, the accountant may not be able to detect all the significant matters that can be identified through audit, so it is impossible to express an audit opinion.

## Basis for qualified opinion

As stated in Note 4(3) of the consolidated financial statements, the financial statements of the same period of some insignificant subsidiaries included in the aforementioned consolidated financial statements have not been reviewed by the CPAs, and the total amount of their assets as of September 30, 2025 and 2024 was NT\$2,846,836 thousand and NT\$2,891,537 thousand, accounting for 15.60% and 13.12% of the total consolidated assets, respectively; the total amount of their liabilities was NT\$2,062,862 thousand and NT\$2,108,103 thousand, accounting for 15.17% and 12.23% of the total consolidated liabilities, respectively; the total amount of comprehensive income from July 1 to September 30, 2025 and 2024 was NT\$ (87,538) thousand and NT\$ (324,336) thousand, and that from January 1 to September 30, 2025 and 2024 was NT\$ (405,453) thousand and NT\$ (776,939) thousand, accounting for 49.62%, 110.54%, 38.52% and

15,740.25% the total consolidated comprehensive income, respectively. As stated in Notes 6 (6) to the Consolidated Financial Statements, part of the investment using the equity method is prepared based on the financial statements from each company for the same period not reviewed by an CPA. The balance of investments using the equity method as of September 30, 2025 and 2024 was NT\$51,383 thousand and NT\$75,489 thousand, accounting for 0.28% and 0.34% of the total consolidated assets, respectively; the share of assets of associates recognized using the equity of such from July 1 to September 30, 2025 and 2024 was NT\$(13,380) thousand and NT\$(9,138) thousand, and that from January 1 to September 30, 2025 and 2024 was NT\$(37,774) thousand and NT\$(26,130) thousand, accounting for 7.58%, 3.11%, 3.59% and 529.38% of the consolidated comprehensive income, respectively.

## **Qualified opinion**

According to our results of the review, except for the part described by the basis for qualified opinion that the financial statement of insignificant subsidiaries and part of the investments using the equity method may affect adjustments to the consolidated financial statements upon the CPA's review, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2025 and 2024, the results of the consolidated financial operations from July 1 to September 30, 2025 and 2024, and that from January 1 to September 30, 2025 and 2024, and the consolidated cash flows from January 1 to September 30, 2025 and 2024, in conformity with the Regulations Governing the Preparation of Financial Statements by Securities Issuers and IAS 34: "interim financial reporting" endorsed and made effective by the Financial Supervisory Commission of the Executive Yuan.

## **Other matters**

As stated in Note 12(4) of the consolidated financial statements, the Group's debt ratio and current ratio as of September 30, 2025, were 75% and 63%, respectively. The Group has already submitted a sound business plan.

Taiwan Mask Corporation and Subsidiaries  
Notes to the Consolidated Financial Statements  
2025 and 2024 Q3

Unit: NT\$ Thousand  
(Unless otherwise specified)

**I. Company History**

Taiwan Mask Corporation (hereinafter referred to as the “Company”) was established on October 21, 1988, and started its operations in March 1989. The Company was approved by the shareholders meeting on June 12, 2000 to acquire Shin-Tai Technology Co., Ltd., on the merger record date of December 1, 2000, with the Company being the surviving entity. The Company and its subsidiary (collectively referred to as the “Group”) mainly engage in the research, development, manufacturing and sales of photomask and integrated circuits, providing technical assistance, consultation, inspection and repair of the abovementioned products, and manufacturing and buying and selling of medical equipment.

**II. Date and procedures for passing the financial statement**

The consolidated financial statements were reported to the Board of Directors and issued on November 13, 2025.

**III. Application of New and Revised International Financial Reporting Standards**

**(I) The impact from adopting the newly released and revised IFRS and IAS recognized and issued into effect by the Financial Supervisory Commission (FSC).**

The following table summarizes the applicable newly released, corrected and amended standards and interpretations of the IFRS and IAS recognized and issued into effect by the Financial Supervisory Commission in 2025:

Newly released/corrected/amended standards and interpretations	Effective Date Issued by IASB
Amendments to IAS No. 21 “Lack of Exchangeability”	January 1, 2025

The Group believes that the adoption of aforementioned IFRSs will not have a significant effect on the financial position and performance.

(II) Impact of the newly released and amended IFRS and IAS recognized by the FSC not yet adopted by the Company.

The following table summarizes the standards and interpretations for the newly released, amended, and revised IFRSs applicable in 2026 as approved by the FSC:

Newly released/corrected/amended standards and interpretations	Effective Date Issued by IASB
Amendments to certain provisions of IFRS 9 and IFRS 7 regarding the “Amendments to the Classification and Measurement of Financial Instruments”	January 1, 2026
Amendments to IFRS 9 and IFRS 7, Sale “Power Purchase Agreement”	January 1, 2026
IFRS 17 - Insurance contracts	January 1, 2023
Amendment to IFRS 17 - Insurance contracts	January 1, 2023
Amendments to IFRS 17 “First-time Adoption of IFRS 17 and IFRS 9 - Comparative Information”	January 1, 2023
Annual Improvements to IFRS Accounting Standards - Volume 11	January 1, 2026

The Group believes that the adoption of aforementioned IFRSs will not have a significant effect on the financial position and performance.

(III) IFRS and IAS issued by the IASB but not yet recognized by the FSC.

The following table summarizes the applicable newly released, corrected and amended standards and interpretations of the IFRS and IAS issued by the IASB but not yet recognized by the FSC:

Newly released/corrected/amended standards and interpretations	Effective Date Issued by IASB
IFRS 10 and IAS 28 amendments, Sale or contribution of assets between an investor and its associate or joint venture	To be determined by the IASB
IFRS 18 “Presentation and Disclosure in Financial Statements”	January 1, 2027 (Note)
IFRS 19 “Subsidiaries without Public Accountability: Disclosures”	January 1, 2027

Note: The FSC announced in its newsletter dated September 25, 2025, that International Financial Reporting Standard 18 (referred to as IFRS18) shall be applied to public companies in 2028. In addition, if enterprises need to apply IFRS18 early, they may choose to do so once the FSC has approved IFRS18.

The Group believes that the adoption of aforementioned IFRSs will not have a significant effect on the financial position and performance, except for the following:

IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 “Presentation and Disclosure in Financial Statements” replaces IAS 1, updates the structure of comprehensive income statement, requires the disclosure of management-defined

performance measures, and enhances the principles for grouping and classifying information for main financial statements and notes.

#### IV. Summary of Significant Accounting Policies

Significant accounting policies are the same as those in Note 4 of the 2024 consolidated financial statements, except for the compliance statements, basis of preparation, basis of consolidation, and applicable parts of interim financial statements. These policies have been consistently applied to all the periods presented, unless otherwise stated.

##### (I) Compliance statement

1. The consolidated financial statements of the Group have been prepared in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and the IAS No. 34, “Interim Financial Reporting” as endorsed by the FSC.
2. The consolidated financial statements should be read in conjunction with the 2024 consolidated financial statements.

##### (II) Basis of Preparation

1. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention.
  - (1) Financial assets and financial liabilities at fair value through profit or loss (including derivatives).
  - (2) Financial Assets at Fair Value Through Other Comprehensive Income.
  - (3) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.
2. The preparation of financial statements in conformity with IFRS, IAS, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

##### (III) Basis of consolidation

1. The basis for preparation of consolidated financial statements

The principles for preparing the consolidated financial statements are the same as those for the 2024 consolidated financial statements.

2. Subsidiaries included in the consolidated financial statements:

Note 1: In March 2023, the Company's subsidiary, Guang Ju Holding Co., Ltd., invested in Moment Semiconductor, Inc. with a 53.33% shareholding. Moment Semiconductor, Inc. conducted a cash capital increase by issuing new shares in September 2024. Guang Ju Holding Co., Ltd. did not subscribe in proportion to its shareholding, so its ownership decreased from 53.33% to 52.84%; a capital reserve of NT\$410 was recognized.

Note 2: The Company's subsidiary, Guang Ju Holding Co., Ltd., holds a majority of the Board of Directors and therefore has substantial control over the company, and accordingly included the company in the consolidated financial statements as a consolidated entity.

Note 3: Pilot Battery Co., Ltd. was renamed Pilot Energy Co., Ltd. in April 2024.

Note 4: The Company and its subsidiary, Guang Ju Holding Co., Ltd., originally held 75.32% and 0.19% of the shares, respectively. In January 2025, Innova Vision Inc. conducted a cash capital increase of NT\$200,000. Although the Company and its subsidiary, Guang Ju Holding Co., Ltd., participated in the subscription, they did not subscribe in proportion to their original shareholding percentages. As a result, their ownership decreased from 75.32% and 0.19% to 66.71% and 0.13%, respectively. A capital reserve of NT\$57,918 was recognized.

Note 5: The shareholders' meeting of Aptos Technology INC. passed a resolution to dissolve the company in June 2025 and filed for bankruptcy with the court in the same month. As of the date of these consolidated financial statements, the liquidation process has not yet been completed.

Note 6: The financial statements of the entity as of and for the three months ended September 30, 2025 and 2024 were not reviewed by independent accountants, because the entity did not meet the definition of a significant subsidiary.

Note 7: iPro Vision Inc. was renamed Guang Ju Holding Co., Ltd. in August 2025.

3. Subsidiaries not included in the consolidated financial statement: None.

4. Adjustments for subsidiaries with different balance sheet dates: None.

5. Significant restrictions: None.

6. Subsidiaries that have non-controlling interests that are material to the Corporate Group:

The total non-controlling interests of the Group as of September 30, 2025, December 31 and September 30, 2024 were NT\$97,175, NT\$323,260 and NT\$(263,090), respectively. The following information shows subsidiaries that have non-controlling interests that are material to the Group:

(IV) Employee benefits

Pensions

Defined benefit plans

The calculation of pension cost during the interim period adopts the pension cost rate determined by actuarial calculations at the end of the previous financial year, and is based on the beginning of the year to the end of the current period. If there are major market changes and major reductions, liquidation or other major one-off events after the end date, adjustments shall be made and relevant information shall be disclosed in accordance with the abovementioned policies.

(V) Income tax

Income tax expenses of the interim period are calculated based on the estimated annual average effective tax rate applied to the pre-tax profit and loss of the interim period, and the relevant information shall be disclosed in accordance with the aforementioned policies.

V. Critical Accounting Judgments and Key Sources of Estimation and Uncertainty

2. As of September 30, 2025, December 31, 2024 and September 30, 2024, the Group held 20.20%, 28.20% and 25.62% of shares of Advagene Biopharma Co., Ltd., respectively, and 28.20%, 28.55% and 28.20% of shares of Weida Hi-Tech Co., Ltd., respectively, making it the single largest shareholder in each case. However, the Group did not hold a majority of the Board of Directors' seats and therefore did not participate in all operational decisions and business policies including strategic decisions (e.g., financing, acquisitions, personnel and dividend policies, etc.) of Advagene Biopharma Co., Ltd. and Weida Hi-Tech Co., Ltd. The Group's shareholdings alone did not meet the required attendance percentage at shareholders' meetings, indicating that the Group has no power to direct relevant activities and therefore the Group does not have control over the company and has only significant influence.
3. The Group sold the shares of Advagene Biopharma Co., Ltd. from January to September 2025, resulting in a decrease in shareholding from 25.62% to 20.20%; a gain on disposal of investments of NT\$50,098 was recognized.
4. In March 2024, the Group acquired 13,500 thousand common shares of TrueLight Corporation through private placement with an investment amount of NT\$410,400. As of June 30, 2025, the shareholding ratio was 12.11%, making the Group the single largest shareholder of the company. However, the Group's shareholding does not reach the statutory attendance percentage of shareholders meetings, indicating that the Group has no actual ability to direct relevant activities. Therefore, it is judged that the Group has no control over the company, and only has significant influence on it.
5. In April 2024, the Group acquired 6,000 thousand common shares of BKS Tec Corp. through capital increase in cash, with an investment amount of NT\$30,000. As of September 30, 2025, the shareholding ratio was 38.91%, making the Group the single largest shareholder of the company. However, the Group did not hold a majority of the Board of Directors' seats and therefore did not actually participate in the business decisions and operating policies, including strategic decisions (such as financing, acquisitions, personnel and dividend policies) of BKS Tec Corp. The Group's shareholding alone does not reach the statutory attendance percentage of shareholders meetings, indicating that the Group has no actual ability to direct relevant activities. Therefore it is judged that the Group has no control over the company, and only has significant influence on it.

6. For July 1 to September 30, 2025 and 2024, and January 1 to September 30, 2025 and 2024, the audited company TrueLight Corporation, the investment income (loss) of long-term equity investments using the equity method is recognized based on the financial statements compiled by the investees for the same period while not being reviewed by a CPA.

1. The Group had no interest capitalization for investment property during the period between January 1 and September 30, 2025 and 2024.
2. The major components of the Group's houses and buildings include land, buildings and factory renovation projects. Except for land, they are depreciated for 3 to 60 years.
3. Information on property, plant and equipment pledged to others as collateral is provided in Note 8.
4. The abovementioned property, plant and equipment of the Group are for self-use.

(VIII) Leasing arrangements - lessee

1. The underlying assets leased by the Group include land, buildings and company vehicles. Leasing contracts are typically made for periods of 3 to 20 years. Lease contracts are negotiated separately and include a variety of terms and conditions. There are no restrictions for the leased assets, except that they cannot be used as loan collaterals.
2. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	September 30, 2025	December 31, 2024	September 30, 2024
	Book value	Book value	Book value

Gain on lease modifications	32	3,005

5. The total lease cash outflow of the Group for January 1 to September 30, 2025 and 2024 was NT\$40,481 and NT\$47,208, respectively.

6. Options to extend or terminate leases

In determining lease terms, the Group takes into consideration all facts and circumstances that create economic incentives to exercise an option to extend or terminate leases. The assessment of lease period is reviewed if a significant event occurs which affects the assessment of options to extend or options not to terminate.

#### (IX) Leasing arrangements - lessor

1. The Group leases out assets such as buildings. The lease contracts are typically made for periods of 1 to 2 years. The terms of lease contracts are negotiated separately and include various terms and conditions. In order to preserve the condition of leased assets, the Group usually requires lessees not to pledge the underlying leased assets.
2. The Group's rent receivable has no overdue payment, and the credit risk loss amount is not significant after assessment.
3. The Group recognized rental income of NT\$5,735, NT\$5,285, NT\$17,933 and NT\$15,863 based on operating lease contracts in the periods between July 1 and September 30 of 2025 and 2024 and between January 1 and September 30 of 2025 and 2024, respectively, and none of the lease contracts were variable lease payments.
4. The maturity analysis of the undiscounted lease payments under the operating leases is as follows:

	September 30, 2025	December 31, 2024	September 30, 2024
2025	\$ 4,087	\$ 18,261	\$ 4,667

	\$ 59,165	\$ 27,390

2. As business conditions were not as good as expected, and the recoverable amount was estimated to be less than the book value, an impairment loss of NT\$59,165 and NT\$27,390 was recognized in the first quarter of 2025 and 2024, respectively.

The recoverable amount of the Group is assessed based on the value in use. The value in use is calculated based on the pre-tax cash flow forecast of the financial budget approved by the management. The main assumptions used to calculate the value in use are as follows:

- (1) Revenue growth rate: Reference to market-related information and estimated based on the planned operating sales plan.
- (2) Margin rate: Reference to historical values and estimated based on the planned operating sales plan.
- (3) Discount rate: The pre-tax ratio and reflects the specific risks of the relevant operating segments.

(XVIII) Pensions

1. (1) The Company and its domestic subsidiaries operate a defined benefit pension plan in accordance with the Labor Standards Act, which cover all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last six months prior to retirement. The Company and its domestic subsidiaries contribute a monthly amount equal to 2% of employees' monthly salaries and wages to a retirement fund at the Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contribution for the deficit by the end of next March.  
(2) For the periods between July 1 and September 30 of 2025 and 2024, and between January 1 and September 30 of 2025 and 2024, the pension costs recognized by the Corporate Group in accordance with the aforementioned pension measures were NT\$533, NT\$533, NT\$1,600, and NT\$1,600, respectively.  
(3) The expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2026 are NT\$2,133.
2. (1) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (hereinafter referred to as the "New Plan") under the Labor Pension Act (hereinafter referred to as the "Act"), covering all regular employees with domestic citizenship. Under the New Plan, the Company and its domestic subsidiaries contribute an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.  
(2) The subsidiaries in China are subject to the pension plan system stipulated by the People's Republic of China (PRC) government. According to the PRC regulations, a certain percentage of the total salary of the local employees is appropriated as pension fund on a monthly basis. Except for the monthly contributions, the Company is not required to bear further obligations.  
(3) For July 1 to September 30 of 2025 and 2024, and January 1 to September 30 of 2025 and 2024, the pension costs recognized by the Corporate Group in accordance with the aforementioned pension measures were NT\$10,299, NT\$14,190, NT\$35,644, and NT\$42,556, respectively.

## (XXI) Retained earnings

1. According to the Articles of Incorporation, any surplus from profit concluded at the end of year by the Company is first subject to reimbursement of previous losses and payment of taxes, followed by 10% provision for legal reserve and provision or reversal of special reserve as the laws may require. Any earnings remaining shall be distributed as shareholders' dividends in whole or partially.
2. The Company takes into account the overall business environment, industrial growth, and the Company's long-term financial planning for stable operation and development to adopt a residual dividend policy, which is mainly based on the Company's future capital budgeting plan to measure the annual capital needs. After using the retained earnings for funding, the remaining surplus will be distributed in the form of dividends, and the distribution steps are shown as follows:
  - (1) Decide on the best capital budgeting.
  - (2) Decide on the financing required for one of the capital budgeting items.
  - (3) Decide on the amount of the financing to be supported by retained earnings

(methods such as cash capital increase or corporate bonds and so on can be adopted as support).

- (4) After retaining the portion required for operation needs out of the earnings remainder, the rest should be distributed to shareholders in the form of dividends. Cash dividends distribution proportion should not be lower than 20% of the total amount of dividends for the distribution proportion of the Company's dividends.
3. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of the legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
4. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

1. According to the Articles of Incorporation, the Company shall distribute not less than 10% of the current year's profit as the employee remuneration, and an amount not less than 10% of the aforementioned employee remuneration shall be distributed as the remuneration of entry-level employees, and an amount not more than 2% of current year's profit shall be distributed as the director remuneration. However, profits must first be taken to offset against cumulative losses, if any.
2. For the Company's remuneration of employees and remuneration of directors for July 1 to September 30, 2025, and January 1 to September 30, 2025, relevant expenses were not estimated for recognition due to a net loss in the current period. The estimated amounts for the Company's remuneration of employees for July 1 to September 30, 2025 and 2024, and January 1 to September, 2025 and 2024 were NT\$(17,000) and NT\$33,000, respectively, and the estimated amounts of remuneration of directors were NT\$(1,400) and NT\$6,400, respectively. The aforementioned amounts were recognized as payroll expenses.

The 2024 remuneration of employees and remuneration of directors as resolved by the Board of Directors are consistent with the amounts recognized in the 2024 financial statements.

Information about employees remuneration and director remuneration of the Company as resolved by the Board of Directors is available on the MOPS.

(XXXI) Earnings (loss) per share

	July 1 to September 30, 2025		
	Weighted average share outstanding after tax	Loss per share (thousand shares)	Loss per share (in dollars)
<b><u>Basic loss per share</u></b>			
Net loss attributable to ordinary shareholders of the parent	(\$158,444)	256,369	(\$ 0.62)
<b><u>Basic loss per share</u></b>			
Net loss attributable to ordinary shareholders of the parent	(\$204,978)	213,660	(\$ 0.96)
<b><u>Basic and diluted loss per share</u></b>			
Net loss attributable to ordinary shareholders of the parent	(\$811,161)	228,054	(\$ 3.56)
<b><u>Earnings per share</u></b>			
Profit attributable to ordinary shareholders of the parent	\$224,382	213,539	\$ 1.05
<b><u>Diluted Earnings per share</u></b>			
Profit attributable to ordinary shareholders of the parent	\$224,382	213,539	
Assumed conversion of all dilutive potential ordinary shares			
Convertible bonds	10,597	19,920	
Employee remuneration	-	1,149	
Profit attributable to ordinary shareholders of the parent company plus assumed conversion of all dilutive potential ordinary shares	\$234,979	234,608	\$ 1.00

The weighted average number of shares outstanding for July 1 to September 30, 2025 and

2024, and January 1 to September 30, 2025 and 2024 has deducted the number of shares held by the subsidiary company Guang Ju Holding Co., Ltd. deemed as the Company's treasury stock (the number of shares is based on the Company's shareholding). For July 1 to September 30, 2025 and 2024, and January 1 to September 30, 2025, the Company operated at a loss; therefore, there was no potential dilutive effect of ordinary shares and the diluted loss per share was equal to the basic loss per share.

## 2. Risk management policies

- (1) The Group's activities expose it to a variety of financial risks, including market risk (exchange rate, interest rate and price), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial position and performance.
- (2) Risk management is carried out by a central finance department (Group finance) under policies approved by the Board of Directors. Group finance identifies, evaluates and hedges financial risks in close collaboration with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as currency exchange risk, interest rate risk, credit risk, the use of derivatives and non-derivative financial instruments and investment of excess liquidity.

## 3. Significant financial risks and degrees of financial risks

- (1) Market risk

### A. Foreign exchange risk

The Group's operations involve certain non-functional currencies (the Company's and certain subsidiaries' functional currency is the New Taiwan dollar (NTD), and for other certain subsidiaries, the functional currency is the US Dollars, Japanese Yen and China's Renminbi (RMB)), so it is subject to the

impact of exchange rate fluctuation. The details of assets and liabilities denominated in foreign currencies whose values that would be materially affected by exchange rate fluctuations are as follows:

#### Price risk

- A. The equity instruments owned by the Company exposing to the price risk are financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income.
- B. The Group invests primarily in equity instruments and open-end funds issued by domestic and foreign companies. The price of such equity instrument is subject to the uncertainty of the future value of investment target. If the equity instrument price had increased/decreased by 1% with all other variables held constant, net income after tax from equity instruments at fair value through profit or loss for the nine months ended September 30, 2025 and 2024, would have increased/decreased by NT\$12,216 and NT\$35,677, respectively; other comprehensive income classified as equity investment at fair value through other comprehensive income would have both increased/decreased by NT\$0.

#### Cash flow and fair value interest rate risk

- A. The Group's interest rate risk mainly comes from long-term borrowings issued at floating rates, which exposes the Group to cash flow interest rate risk. For January 1 to September 30, 2025 and 2024, the Group's borrowings issued at floating rates were mainly denominated in New Taiwan dollars and US dollars.
- B. The Group's borrowings are measured at amortized cost, and the annual interest rate is re-priced according to the contract, which exposes the Group to the risk of future market interest rate changes.
- C. If the borrowing interest rate had increased/decreased by 0.25% with all other variables held constant, net income after tax for January 1 to September 30, 2025 and 2024, would have increased/decreased by NT\$13,396 and NT\$20,754, respectively due to the change in interest expenses as a result of borrowings with

floating interest rates.

(2) Credit risk

- A. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments under contract obligations, and the defaults are accounts receivable and the contract cash flow from debt instruments measured at amortized cost, measured at fair value through other comprehensive income and at fair value through profit or loss.
- B. The management of credit risk is established with a Group perspective. Only the banks and financial institutions with an independent credit rating of at least "A" can be accepted as transaction partners of the Group. According to the Group's credit policy, each local entity in the Group is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilization of credit limits is regularly monitored.
- C. The Group considers a contract payment overdue in accordance with the agreed payment terms a breach of contract.
- D. The Group uses IFRS 9 to provide the following assumption as a basis for determining whether there is a significant increase in the credit risk of financial instruments after the original recognition:
  - (A) If the contract payment is overdue for more than 30 days in accordance with the agreed payment terms, the credit risk of the financial asset is significantly increased since the original recognition.
  - (B) For bond investments in Taipei Exchange, if any external rating agency rates it as an investment grade on the balance sheet date, the credit risk of the financial asset is considered low.
- E. The Group uses the following indicators to determine the status of credit impairments of debt instruments:
  - (A) The issuer has suffered significant financial difficulties or is likely to enter bankruptcy or other financial restructuring.
  - (B) The issuer has suffered significant financial difficulties or is likely to enter bankruptcy or other financial restructuring.
  - (C) The issuer delays or does not pay for the interest or principal.
  - (D) Unfavorable changes in the national- or regional-level economic situation resulting in the issuer's default.
- F. The Group categorizes the accounts receivable from customers based on the characteristics of trade credit risks. The simplified approach is adopted for estimating the expected credit loss based on the provision matrix.
- G. The Group may write off the amount of financial assets that cannot be reasonably expected to be recovered after recourse. However, the Group will continue the recourse to protect the rights of the claims.
- H. The Group has incorporated forward-looking considerations to adjust the loss rate

built according to historical and current data in order to estimate the loss allowance of accounts receivable and notes receivable. The provision matrix for September 30, 2025, December 31, 2024 and September 30, 2024 is shown as follows:

	Not past due	Up to 30 days	31-90 days	91-180 days	More than 181 days past due	Total
<u>September 30, 2025</u>						
Expected loss rate	0.01%	0.01~25.72%	11.56~58.09%	24.32~58.06%	60.10~100%

Loss allowance	-	-	( 8,669)	( 7,468)	( 94,625)	( 110,762)
<u>September 30, 2024</u>						
Expected loss rate	0.01%	0.04~29.55%	0.04~60.8%	13.24~100%	66.01~100%	
Total book value	\$ 1,100,156	\$ 164,132	\$ 65,409	\$ 50,810	\$ 122,632	\$ 1,503,139
Loss allowance	-	-	( 7,969)	( 15,137)	( 68,753)	( 91,859)

I. The Group adopts a simplified method in which the loss allowance for the accounts receivable is shown as follows:

	2025	2024
January 1	\$ 110,762	\$ 29,423
Recognize impairment loss	2,055	62,442
Impact from exchange rate	15 ( 6)	6

September 30	\$ 106,559	\$ 91,859

### (3) Liquidity risk

A. Cash flow forecasting is performed by the operating entities of the Corporate Group and aggregated by the Group's treasury department. The Group's Finance Department monitors the forecasts of the Group's demand for working capital to ensure that it has sufficient funds to meet operational needs, and maintains sufficient unspent loan commitments at all times so that the Group will not exceed the relevant borrowing limits or violate the terms. These forecasts consider the Group's debt financing plan, compliance with debt terms, and compliance with the financial ratio objectives of the internal balance sheet.

B. The remaining cash held by each operating entity will be transferred back to the Group's finance department. The finance department of the Group invests the remaining funds in interest-bearing demand deposits, time deposits, and financial assets at amortized cost (time deposits with a maturity of more than 3 months and less than 12 months), as the instruments chosen have appropriate maturities or sufficient liquidity to provide adequate headroom as determined by the aforementioned forecasts. As of September 30, 2025, December 31, 2024 and September 30, 2024, the Group held money market positions of NT\$2,108,491, NT\$2,325,127 and NT\$2,207,773, respectively, which are expected to generate cash flow immediately to manage liquidity risk.

C. The Group's unutilized borrowings are shown as follows:

	September 30, 2025	December 31, 2024	September 30, 2024
Floating rate			
Short-term credit limits	\$ 456,877	\$ 920,414	\$ 281,256

	<u>\$ 522,377</u>	<u>\$ 924,907</u>	<u>\$ 289,582</u>

D. The following table shows the Group's non-derivative financial liabilities and derivative financial liabilities settled on a net or total amount, grouped according to the relevant maturity date. Non-derivative financial liabilities are analyzed based on the remaining period from the balance sheet date to the contract maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

### (III) Fair value information

1. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in stocks of publicly traded or OTC firms and beneficiary certificates is included in Level 1.
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
  - Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in stocks of non-publicly traded or non-OTC firms and private equity fund is included in Level 3.

2. Financial instruments not measured at fair value

Cash, notes receivable, accounts receivable, other receivable, short-term borrowings, notes payable, accounts payable and other payable as reasonable approximation of fair value.

3. The related information for financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

4. The methods and assumptions adopted by the Group for assessing the fair value are as follows:

(1) The Group adopt market pricing as the input of fair value (i.e. Level 1), and the breakdown of the characteristics of the instrument is as follows:

	Shares of listed and OTC company	Open-end funds
Market price	Closing price	Net Value

(2) Except for the abovementioned financial instruments with active markets, the fair value of the remaining financial instruments is obtained using valuation techniques. The fair value obtained through valuation techniques can refer to the current fair value of other financial instruments with similar substantive conditions and characteristics, discounted cash flow method, or other valuation techniques, including the use of market information available on the date of the consolidated balance sheet (for example, the Taipei Exchange refers to the yield curve, the Reuters adopts the average quotation of interest rate of commercial promissory notes).

(3) The output of the valuation model is the estimated value, and the valuation technique may not reflect all the relevant factors of the financial instruments and non-financial instruments held by the Group. Therefore, the estimated value of the valuation model will be appropriately adjusted according to additional parameters, such as model risk or liquidity risk. According to the Group's fair value valuation model management policies and related control procedures, the management believes that in order to properly express the fair value of financial instruments and non-financial instruments in the consolidated balance sheet, valuation adjustments are appropriate and necessary. The price information and parameters used in the valuation process are carefully assessed and appropriately adjusted according to current market conditions.

(4) The Group incorporates credit risk valuation adjustments into the consideration of the fair value of financial instruments and non-financial instruments to reflect counterparty credit risk and the credit quality of the Group, respectively.

5. There was no transfer between Levels 1 and 2 for January 1 to September 30, 2025 and 2024.

6. The following table shows the changes in Level 3 for January 1 to September 30, 2025 and 2024:

7. As Image Match Design Inc. was officially listed on the Emerging Stock Market on March 10, 2025, and trading volume in the market has increased steadily, sufficient observable market data has become available. Accordingly, the Group reclassified the fair value measurement of the investment from Level 3 to Level 2 at the end of the month in which the event occurred.

8. The quantitative information about the significant unobservable input value of the valuation model and the sensitivity analysis of the significant unobservable input value change used in the Level 3 fair value measurements are explained as follows:

#### (IV) Sound Business Plan

As of September 30, 2025, the Group's financial structure showed a debt ratio of 75% and a current ratio of 63%. In response, the Group has formulated and is actively implementing a sound business plan that addresses capital, operations and governance.

With regard to the fund aspect, the Company organized the first private placement of common stocks in July 2025 with the issuance of 63,370 thousand shares, which were fully subscribed by LUMINOUS RISE INVESTMENT CO., LTD., and a capital amount of NT\$1.546 billion was raised and used to repay convertible bonds of NT\$1.544 billion in full, achieving a 100% completion rate. Accordingly, the financial leverage and short-term solvency of the Company were effectively improved. In addition, the Company has applied for the public offering of cash capital increase with issuance of new shares with the FSC in October 2025, in order to use the capital raised to repay the bank loans and to reduce the debt ratio at the same time. The application is currently under FSC's review.

In terms of operations, the Group has streamlined its organizational structure, optimized capacity allocation, strictly controlled raw material procurement and expense spending, and implemented a tiered tracking mechanism for accounts receivable to improve gross margin and accelerate cash collection.

In terms of governance, the Group has implemented an enterprise-wide risk management mechanism and established a quarterly reporting system to regularly update the Board of Directors and the Audit Committee on the execution status. The Group also evaluates market conditions to dispose of non-core assets or reinvestments as needed to supplement cash flow.

The Group expects that the full implementation of the above measures will ensure its ability to continue as a going concern and maintain long-term financial stability.
